

MAMY Drivers Benefits Content

Additional Monthly Income

Turn your vehicle into a revenue-generating asset.

As a MAMY Driver Partner, you can earn additional monthly income by allowing a premium rear-window digital display to operate while you drive your normal routes. There is no need to work longer hours or change your daily schedule. Your vehicle continues doing what it already does—moving through high-traffic areas where brands want visibility.

Drivers receive a share of advertising revenue generated by their vehicle, creating a new income stream that supplements earnings from rideshare, black car, taxi, delivery, or personal use. As the MAMY network grows and attracts premium advertisers, your earning potential grows with it.

Key Benefits

- Earn additional income every month
- No extra driving required
- Revenue share from premium advertising campaigns
- Potential for higher earnings as network demand increases
- Early partners may receive preferential founding benefits

Flexible Participation

Join on your terms.

MAMY is designed to fit around your existing lifestyle and work schedule. There are no fixed shifts, quotas, or mandatory route requirements. Whether you drive full-time, part-time, or only occasionally, your vehicle can still participate in the MAMY network.

You remain in full control of your vehicle and your schedule. Participation is voluntary, and you can choose to continue as long as the program meets your expectations.

Key Benefits

- No minimum hours required
- Keep your current job and driving routine
- Drive when and where you normally do
- Voluntary participation
- Designed for rideshare, black car, taxi, fleet, and private vehicle owners

Premium Technology Installation

Professional technology at no upfront equipment cost.

MAMY installs a state-of-the-art transparent digital display inside your vehicle's rear windshield. The technology is designed to preserve visibility while delivering high-impact advertising to surrounding traffic.

Installation is performed by qualified technicians using premium hardware and remote monitoring systems. The display is professionally integrated, securely mounted, and configured to operate automatically.

MAMY manages the technology, content delivery, and system updates so you can focus on driving.

Key Benefits

- Professional installation by trained technicians
- Transparent display mounted inside the rear window
- Automatic operation and remote content management
- Premium, non-invasive technology
- No need to manage advertising content yourself

Dedicated Support

A real team behind you.

Every MAMY Driver Partner receives dedicated support throughout the partnership. Our team assists with onboarding, installation, technical issues, maintenance, and earnings questions.

If any issue arises, MAMY works quickly to resolve it so your vehicle remains operational and your participation remains seamless.

Key Benefits

- Guided onboarding process
- Responsive technical support
- Maintenance coordination
- Clear earnings reporting
- Ongoing partnership assistance
